Our School’s History

When Roundy Elementary School opened they only had 749 students. Our school opened in 2008. Our school has grown to over 750 students in five school years. Did you know that there is 80% Hispanics in our school? There is only a small amount of students in Pre-K. There are about 20 students in Pre-K. There is 144 students in kindergarten.

Roundy Elementary School’s student population of 882 students has stayed relatively flat over the five school years. Also our school population is 47% female and 53% male. The staff of teachers was 50 in 2010 and the number hasn’t decreased in the last 9 years.

We are ranked at 272 out of 220. In 2019 our school was rated below 64.9% of the other elementary schools in Nevada. However, one last thing is that Roundy Elementary School is above the average state expectations. Our school is the fifth largest school in Nevada. People give our school a 3 star review. In reading our proficient percent is 42 and in math the percent is also 42.
Houses

By: Amy

Are you interested in knowing about our houses? Well, we have a couple of future events and events that have passed. If you are reading this, you might be astonished!

For our past events, the house Ausdauer won. They have gotten their reward. Now we have reset the points. Aroha is in 2nd, Fidelis 3rd, Ausdauer 1st and Isibindi is in 4th. We will now see what happens next.

We will be resetting the points every 9 weeks. The Houses are now facing difficult challenges throughout the year. But if you are reading this, convince a house member about reading the houses because this is important for their team and others. ( IT’S ANYBODY’S GAME! )

These Houses mean something to us. Every House is a different kind of team. All with Compassion, Integrity, Courage, and Perseverance. For more House info, read “Information about the Houses”. Where my fellow friends, Ashley and Verenice wrote about the creator of the houses and more!

I hope you all enjoyed reading this here on House Events in News on the Road. Don’t forget to read “Information about the Houses.” This interesting part of the newspaper is knowing all the facts about these House Events. Thank you for “racing” into this article!

Information About the Houses

By: Ashley and Verenice

Do you know the house creator? Do you know what the house names and meanings? Then keep on reading to find out!

Ms.Pellegrino’s response to the first question is the CCSD network and a bunch of teachers from other schools created the houses.

The Meanings of the Houses

The house meaning of Fidelis is integrity. Integrity means when doing something right while no one is watching. The meaning of Ausdauer is perseverance. Perseverance means never stop trying and never giving up. The meaning of Aroha is compassion. Compassion means doing something for others. The meaning of Isibindi is courage. Courage means doing something even when your afraid of it or something.

We hope you all enjoyed reading this and learned something while reading this. We also want you to someday be able to have one of these traits so you can have a good impact on the world.
Family Lunch Picnic and Parade

By Yanci

The family picnic will be on October 31st. If any family members want to have lunch with the students or watch the parade here are the times for all the grades:
- Kindergarten-1st grade will be 11:45-1:15
- 2nd and 3rd will be at 12:00-1:15
- 4th and 5th will be at 11:30-1:15.

The parade will be at 1:30. Students may wear their costumes to school. They may wear their costumes but they can't wear masks. They may not wear anything violent. If students don't want to wear their costumes to school they may bring them and they may change before lunch. If students want to bring treats, they will be given out at lunch time. Students may leave early if their parents sign them out or they can stay till the end of the day.

Nevada Day

By Raymon

Another thing that will happen this month is Nevada Day. Some people don't really know the meaning of Nevada day. The reason we celebrate Nevada day is because it's the day this state was the thirty six-state and it also celebrates the state frontiers legacy. This is why we celebrate Nevada day.

Fall Festival

By Reynaldo

In my opinion I think anybody or everybody should attend the Community Fall Festival. The Fall Festival will be starting at 11 a.m. all the way until 2 p.m. It will be happening at the Mountain Top Church. The event will be happening on the 26th of October. The people who will be attending it will be almost anyone who will choose to go.
Do you want to buy some kona ice? It has a variety of flavors. LOOK AT THESE FLAVORS!

Even Godzilla has his own drink and if you want to feel the power of his atomic breath, go and look for his blue picture above the flavor. Next we are going to look at the price of the cups!!!

There are many different cups and each cup has a different price. The kiddie cup costs $3 and it contains 9 ounces. The klastic costs $4 and it contains 12 ounces. The king costs $5 and it contains 16 ounces. The color change costs $6 and it contains 17 ounces. It’s called the color change because it color changes from one color to another. You can only get refills on the color change and king.

The way they make them is they use a machine that cuts the ice into little pieces. Then they put them in your cup. They will come next week on Thursday during lunch times.
Tornadoes

By Luis and Naylea

You might not be interested in weather like other people, but if you are, keep reading! Did you know that in Florida there has been a report that almost 3,000 tornadoes occur there?

What is a Tornado?

According to Florida Disaster, a tornado is a violent whirlwind that usually develops in association with a severe thunderstorm. Tornadoes are likely to rise above 200 mph. Did you know that tornadoes can snap trees or move cars or destroy homes?

A weak tornado can push heavy objects. A strong tornado can damage roofs or vehicles. A severe tornado can wreck walls, trains, trees, and cars. Devastating tornadoes can destroy large houses and weak foundations. And finally, an incredible tornado can break concrete, whole houses and send missiles flying. These tornadoes can go from 86 to 200 mph.

How to stay safe when a tornado occurs

You should build or identify a safe room in your home. Stay away from the windows. You should also purchase and use a NOAA (National Oceanic and Atmospheric) weather radio. Inquire if your community is storm ready.

Facts About Tornadoes In Florida

Florida has a higher frequency of tornadoes per 10,000 square miles than any other state (even Oklahoma). According to NOAA (National Oceanic and Atmospheric) 66 tornadoes occur each year. Florida is in third place in the top ten where most tornadoes hit. Florida’s worst tornado killed 42 people and injured 260 people.

Classification of Tornadoes

0 (gale) 65-85 Some damage to chimneys branches broken off trees shallow-rooted pushed over; damage on boards

1 (weak) 86-110 Surface peeled off roofs; mobile homes pushed off foundations or overturned; moving autos pushed off roads.

2 (strong) 111-135 considerable damage roofs torn off frame well constructed houses; mobile homes demolished; boxcars pushed over; large trees snapped or uprooted; light objects missiles generated.

3 (severe) 136-165 Roofs and walls torn off well constructed houses; trains get overturned. Most trees in the forest are uprooted.

4 (Devastating) 166-200 Well constructed houses leveled structures with weak foundations blown off some distance; cars thrown and large missiles generated.

5 (incredible) 200+ Strong framed lifted off foundations and carried considerable distances to disintegrate; automobile sized missiles fly through the air in excess of 100 meters; trees debarked; steel reinforced concrete structures badly damaged.
Wonders of Teachers

Have you ever wondered what your teachers do on their free time or what their job is to do around the school? Let’s start off with Ms. Carrillo.

Education

Ms. Carrillo graduated from UNLV and from Grand Canyon University. She graduated from UNLV with a Bachelors of Science in Education. From Grand Canyon University she graduated with a Masters of Education in Curriculum and Instruction. When she was 18, after she took an education course at UNLV as an elective, that’s when she realized she wanted to be a teacher. Ms. Carrillo has enjoyed teaching every grade, but she mostly enjoys working with intermediate grades.

Entertainment

Ms. Carrillo has a love of visiting her family, especially if it has food involved. Speaking of visits she would love to visit Spain because there are so many beautiful cities to visit. She really loves to read, when she was a kid one of her favorite books is the Amelia’s Notebook series and as she grew older she enjoys reading The Magicians books series.

Things you can’t even imagine

She would enjoy to switch bodies with someone who is the complete opposite of her to experience completely new things. One of her pet peeves is loud chewing, it drives her crazy when she hears loud chewing. Who would have thought! Another thing that is interesting is that she is terrified of heights. In conclusion, Ms. Carrillo has many things you’ve never known about. She is an awesome teacher.

Getting To Know Mrs. Smith and Ms. Jones

What animal do you like that is a land animal?
Mrs. Smith: Giraffe
Ms. Jones: My favorite land animal is a dog, that’s why I have two dogs at home!

What is your favorite savory food?
Mrs. Smith: Popcom for snacking and soup for dinner
Ms. Jones: My favorite savory food is baked macaroni and cheese, specifically the macaroni and cheese that my aunt always make for Thanksgiving.

What country would you like to visit?
Mrs. Smith: Italy or Greece to see all the amazing places I have read about.
Ms. Jones: I want to visit every country because I love to travel! However, I’m currently most excited to visit South Africa because that’s where I will be going during our winter break!

Imagine you could be any Greek goddess or god, what gods or goddesses would you want to be?
Mrs. Smith: I would want to be Athena. She is the goddess of wisdom.
Ms. Jones: If I could be any Greek God I would want to be Hermes because he was the god of travel.

Do you believe in ghosts?
Mrs. Smith: NO, I like to stay up late at night, so I don’t want to think about ghosts.
Ms. Jones: I’m not sure if I believe in ghosts. I’ve had some weird, ghostlike things happen around me, but it hasn’t been weird enough to make me a believer, yet.

Which house do you want to be in if you could pick?
Mrs. Smith: I wanted to be in Isibindi, because purple is my favorite color. I am really happy in Ausdauer since it really has me thinking about how I can be a more persistent person when I am faced with a problem.

Ms. Jones: First of all, Red House is the best house! I love Aroha! However, if I was forced to choose, I would maybe pick Isibindi because I like to think of myself as courageous.

What is your favorite dessert?
Mrs. Smith: Tiramisu or carrot cake
Ms. Jones: I love brownies with walnuts!

Pick only one: Would you rather choose a deer or a buffalo?
Mrs. Smith: Deer
Ms. Jones: I would rather choose a buffalo

Do you like the day time more or the night time more?
Mrs. Smith: I am a night owl!
Ms. Jones: I’m definitely more of a nighttime person.
INTERVIEWING MRS. YEE

Q: Do like the house system? “Yes, I love the house system.”

Q: What do you like about the house system? “I love seeing everyone feel connected.”

Q: What house are you? “I am in Fidelis.”

Q: Have you ever worked at any other schools? “Yes, I worked at Red Rock Elementary School and Garside Junior High.”

Q: What does your office look like? “I have pictures of my daughters and book and famous quotes.”

Q: What did you do at Red Rock? “I was the assistant principal and I worked there for about 5 years.”

Q: What did you do at Garside? “I taught 6th, 7th, and 8th grade math. I also coached girls basketball and did an after-school program.”

Q: How long have you been working at Roundy? “I have been working at Roundy for 2 years.”

Q: What do you do as principal? “I support teachers, question instructions to make sure that all the students are getting challenged.”

Q: What do you do in spare time? “I play with my two daughters, I like to shop, and love going to the movies.”

Q: Where did you work at before Roundy? “Red Rock Elementary School.”

Q: What do you like about your job? “I love to greet students outside while getting out of cars, I love seeing kids smile and their enthusiasm, I love and watching the students grow up.”

Interviewed by Sarah

INTERVIEWING MS. GENA

Q: What is your job? “I pay the teachers, put money into accounts, buy supplies, and deal with substitute teachers when a teacher isn’t here.”

Q: Were you here when the school opened? “No, I came to Roundy three years after the school opened.”

Q: How long have you worked here? “I worked here eight years at Roundy.”

Q: What is your most memorable moment at Roundy? “I think when we hung up the SBAC plaques, all the kids were so excited to see the plaques.”

Q: What do you do in your free time? “I spend time with family, I started family fostering.”

Q: What was originally your career path? “I was a stay at home mom until my kids got older.”

Q: How long are you here a day? “I usually work eight hours, sometimes I work half days.”

Q: What do you do on your computer? “On my computer I buy supplies for teachers, and send emails.”

Interviewed by Hyeah
Test Advice
By Maleki

Have you ever stood in front of a test and have no idea what to do? Well fear no more. Here are 5 tips and tricks that will help you next time you’re doing a test.

Tip 1
Study...study...study. If you’re having trouble with something you’re learning in class it will really help you to study what you’re learning. I promise it will help a lot.

Tip 2
Get plenty of rest. If you have a big test or a pop quiz always get lots of rest because you’ll feel better and just do better.

Tip 3
Always go back. If you go back when you’re doing a test and check your answers. You’ll avoid silly mistakes if you check your answers.

Tip 4
Learn from mistakes. Let’s be real we all make mistakes all the from the littles things from the biggest mess ups. But it’s ok to make mistakes and you can even learn from them and try not to make them again.

Tip 5
Try not to stress. If you stress you’re going to make tons of mistakes and probably do worse than you were planning. So just keep calm and take your time.

Time to Talk About SBAC

You may not be thinking of SBAC right now but in reality you should be. The SBAC is a really important test and should be taken very seriously. But who said it has to be hard. Follow these easy steps and great advice and you’ll do awesome on the SBAC!

Things to try next
The SBAC at times has tons of steps but this does not mean it’s impossible. Just take it a step at a time. First read the questions before you read the text. This will help you because if you read the question before you read you’ll know what you’re going to have to find to answer the questions while you read the text. A second thing you can do to help you is to take it slow. Some people try to get it done as fast as they can. Well before you even take the test you are told to take your time and that there’s no time limit. You should really listen to them. Another thing you can do is just try your best. If you try your best, you’re bound to do a good job. So that just wraps up all the things that you can try to do. But who says the fun has to stop.

SBAC advice
So the one thing that makes me worried when I take the SBAC is the fact the SBAC is an important test but it’s not that hard. All you need to do is go slow and check your work (this helps with both math and reading). Another thing that helps is to stay calm. Staying calm is not that hard (trust me I’m not crazy). One last thing is to have as much fun as you can (okay maybe I’m a little crazy). Try doing your best work and you’ll feel proud by the time it’s over. Well there you go. All the advice I have so till next time, goodbye!
Famous people

By Esmeralda Gonzalez

Are you interested in reading about famous people? If so, keep reading! One famous person I am going to talk about is Ella Mai. Lots of people like to listen to her. Ella Mai has gotten a 2019 BET award.

Ella Mai sings “Were Shot Clock,” “Trip,” and “Boo'd Up.” Are you wondering which song was Ella Mai’s first song? Well on the internet it says “Ella mai’s first song was ‘She Don’t.’” Ella Mai is British. She has such a beautiful voice and sounds so amazing.

Ella Mai was born in London then moved with her mom and dad to New York City. When Ella Mai was 12 she appeared on the music reality show The X Factor. As a child Ella Mai loved to sing and perform arts. During her years in New York she started playing soccer. She also played soccer in London. She started playing soccer in New York because it reminds her when she played in London.

Ella Mai, the London singer huge in the US
Sports Fails Baseball
By Jose

L.A. Dodgers lost to be able to go to the playoffs. The Dodgers were setting a team record that they would win in 2019. This record was around for 136 years, but they lost to be able to go to the playoffs.

The Washington Nationals defeated the St. Louis Cardinals by the four games that they played to go to championships. Now Washington is going to go vs the Astros. Washington is winning vs the Astros and if the Astros win they are going to win their second championship game.

Basketball
By: Kenneth

Some people like to participate in sports and some hate sports. Some also might know about basketball. Here's something that you probably did not know: the Raptors and Warriors were in the finals on 6/13/19. Another fact about the Raptors and Warriors is that Raptors won with 14 more points than the Warriors. That's that about the Raptors and Warriors.

Now let's talk about Suns and Kings. They are on their first game. The Suns won 88 games over the year and the Kings won 105 games. They went against each other on 10/10/2019. The Suns have a winning record in preseason action and that's all for Suns and Kings.
Reviewing Toy Story 4

By Julieta

Toy Story 4 is a great animation and a blast of a comedy. Sify movies says "Toy Story 4 is a big hearted, touching finale to Disney Pixar’s legendary franchise." The film is a terrific blend of emotion, action and drama that will appeal to audiences of all age groups. This movie got 97% on Rotten Tomatoes. Kaitlyn Casais says “I rate this movie, out of 5, a 5.” Melissa Ubaldo says “I would rate this movie 5 out of 5." Verenice Solis states “I rate this movie 4 out of 5.” To me I think this movie is a spectacular movie, 5 out of 5. Personally I would rate this movie 5 stars, but if there were 6 I would choose 6. This movie was really entertaining to watch and great humor on the plushies Bunny and Duck. The part I really like about the Ducky and Bunny is when they give different ideas like plush rush, winner winner, chicken dinner and others to get the key from the old lady so they could open the cabinet and save Forky from Gabby’s doll. I would recommend this movie to families that enjoy comedy in animation.

Reviewing Aladdin

By Luis

I am reviewing Aladdin. In my opinion, my rating is 5 out of 5 because the characters are acting very good! The characters did a good job by singing and I can tell they did a good job acting. They are interesting because the whole story is about princes and princesses. Yes, they are likeable I hope people will enjoy this new part of Aladdin.

What was interesting about the movie was that a poor man turn into a prince by a genie! Aladdin is a caring guy who gives food to hungry people. Jazmin on the other side is a caring princess who is forced to marry against her will. Well that is getting interesting! What’s interesting is when Jafar is forcing Jazmin to marry him. You will want to know if Aladdin saves Jasmine from Jafar.

Go see this new part of Aladdin to find out!

Reviewing Finding Nemo

By Matthew

Finding Nemo was a hit movie, but to me this movie wasn’t that good to start off to the series. My personal opinion on the movie is a 3 out of 5. I think of Finding Nemo when I’m trying to think of a lazy story. For its 2nd edition though, it was mind blowing. I wasn’t expecting it to be as amazing as it was because of the shaky ground built by the first movie’s bad storyline. The only bad thing was the amnesia (forgetting almost everything). One of the things that doesn’t make sense is that when she has a flashback and she doesn’t get inturrupted. My favorite part of the first movie is when it shows the dentist’s daughter in the photo looking so creepy! My favorite part in the second movie is when the final flashback happens where she remembers. Enough of my ranting go check out the movie again and maybe you’ll get my rant a little better.
In my opinion, I think they should add house costumes because we need to express our house spirit way more, and I have a few ideas for it! For Fidelis, we would create feathers and mainly black sleeves, with gray shoes and cardboard talons on the hands. For Isibindi, we would need a purple lion with fuzzy purple gloves. Along with the gloves, there would be a purple fluffy tail, or no tail at all. For girls they would have no mane, but a purple headband with something similar to ears. For Aroha, they would have fins made of cardboard and (again) a tail, but a dolphin tail. An option would be wearing the fins on their hands to complete the set. You’d need red and white clothing. And finally, Ausdauer! They get black and dark green accessories, able to choose freely for this month until the months over. Sadly, this is only my opinion. These are not true things, so don’t go to school like this!

Our fun facts are going to be in sections. The sections are going to be color coordinated. The first section in going to be about people. Next section will be plants. Third section will be animals. The last section will be food or just any random fact that does not fit into our sections/categories.

**NEWS ON THE ROAD**

“If you cut down a cactus in Arizona, you will be penalized up to 25 years in jail.”

“75% of the world’s diet is produced from just 12 plant and five different animals species.”

“85% of plant life is found in the ocean.”

“68 percent of plants are in danger of going extinct.”

“Plants dislike human noise.”
