August 5, 2019

Greetings,

Welcome back to another exciting year at Dr. C. Owen Roundy Elementary School! We have many new and exciting things in store for this year’s scholars. We are thrilled to provide opportunities for every student to learn about robotics and coding through our new technology class! We will also offer parent meetings to explain how you can assist your child with homework, provide overviews of the strategies teachers have used with your child, and answer any questions you may have. We hope you will find these opportunities helpful. A schedule will be coming home soon!

This year we will continue to use the drive-line procedures for morning drop-off. Over the summer, the city painted a new crosswalk on the north west corner of our property. A crossing guard will assist students to cross in that area. Please remind your student that it is unsafe to walk through the parking lot.

This year we will split our students into 4 houses representing the principles of integrity, perseverance, courage, and compassion. The 4 houses each have a name and color assigned to them. Students in each house will compete to earn points during house competitions and daily by demonstrating our 4 principles. We will be looking for students who demonstrate these characteristics and honoring them during our Student of the Month celebrations.

**Isibindi** (Courage- purple house)  
**Ausdauer** (Perseverance- green house)  
**Fidelis** (Integrity- black house)  
**Aroha** (Compassion- red house).

We will also be collecting Box Tops this year. Please look for more information to be sent home each month about how your family can help us raise money toward student incentives.

As always, we welcome you as partners in educating all students and hope to see you on campus soon!

Sincerely,

Amy Yee  
Principal

“**ON THE ROAD TO SUCCESS!”**
